

## Pastor Steven Teo

Trained as an Accountant and served as CEO for the Singapore and Malaysian operations of an international insurance company, Steven is also a credential minister of the Assemblies of God, Australia.

This workshop will draw on Steven's years of experience as a CEO. At the height of his career, as he commenced his second half of life, Steven walked away from the corporate world in search of something more meaningful. This search raises profound financial, social and spiritual questions which individuals today face as they enter transitions in life.

**A Guide to Turning Transition into Significance and Meaning**

# What's This Workshop All About?

Transitions in life are inevitable. There comes a point in our lives, we all make transitions. We may change our jobs, homes or even churches. We may lose a job, encounter a broken marriage or the death of a loved one. We may commence a business or take on a partnership.

Middle age can be an additional difficult factor in the climate of constant change. The proverbial mid-life crisis coupled with dramatic changes in the environment is a potent force for massive upheaval and confusion within the individual life. It can be totally paralyzing for many people unaccustomed to transitions or unprepared for transitions in life.

For many others it is the realization that they have more than they ever wanted, yet asked, "Is that all there is to life?"

## For Whom

This workshop will serve as an inspirational and practical guide for people who are in transition or about to enter the second half of life. It will provide an interesting distinctively Christian perspective to managing transitions in life.
