

Pastor Steven Teo

Trained as an Accountant and served as CEO for the Singapore and Malaysian operations of an international insurance company, Steven is also a credential minister of the Assemblies of God, Australia.

Steven holds an MBA from Monash University. He is also a graduate in executive education from the prestigious International Management Development Institute (IMD), Lausanne, Switzerland.

This workshop will draw on Steven's experience as a CEO in the financial services world. His insights into the financial world allowed him to reposition his life successfully following his decision to leave the corporate world.

The financial world may be complex but money is not. Money by itself is not complicated. The issue is with men—how we handle money and the resulting ramifications from that single decision.

Money will solve all my problems or will it?

1:17

Ownership, Wealth & Financial Independence

Re-Gen Ministries Inc.

A ministry for the regeneration of our generation!

What's This Workshop All About?

Success or failure in life is caused more by mental attitude than by mental capacities

Money is important and when you run out, it becomes extremely important!

Money represents a central motif for many people. When our income level drops below a certain level, the fight to survive consumes our daily lives. On the other hand, once we rise to the level of income that meets all of our reasonable needs,

more money only creates more headaches.

What is the true purpose of money? How much is enough? What is the most appropriate lifestyle to choose? Is money intoxicating? Will money enslave people? What exactly is money?

Ownership

Does God intend ownership for His people? Is there power and influence in ownership? Are there biblical reasons for not being a borrower? I believe ownership equals the capacity to give. One cannot give what one does not have. Matter of fact, ownership helps you to live above the economic vagaries—the ups and downs of economic cycle.

Financial Independence

Chances are you will never achieve financial freedom unless you first define and then become tunnel-visioned in pursuing your objective.

Feeling financially free can mean many things to many people. Only you can define what will make you feel financially free.

The Biblical Perspective

I believe God wants us to serve out of our abundance. He wants us to hold our possessions as a trust given in varying proportions, a privilege not a right, a faithful steward with an attitude of caring and a preoccupation in using wisdom to apply that abundance.

For Whom

This workshop will serve as an inspiration and practical guide for people who need to discover insights on serving with an abundance. It will assist individuals in understanding the need for financial prudence vis-à-vis a nominated lifestyle. It will provide an interesting distinctively Christian perspective to managing finances in our contemporary world.

“He who gathers money little by little makes it grow.” Proverbs 13:11
